## The Field Guide to Drawing & Sketching Animals

TIM POND

*'This is, I think, the best book on drawing animals I've seen. The sheer breadth of the coverage and the amount of detail that Tim goes into is breathtaking.'* Henry Malt, [Artbookreview.net](http://Artbookreview.net)

Artist Tim Pond's lively and engaging book fuses science with art, providing you with the skills, techniques and knowledge you need to create sketches of animals filled with life and movement.

Tim shows you how to observe and draw animals in zoos, farms, wildlife parks and aquariums, teaching you some fascinating facts about the animals along the way and ultimately bringing you closer to nature.

One of the challenges with sketching wildlife is that animals are constantly moving. However, having some basic understanding of biology can help you capture the form, movement and ultimately the spirit of the animal in question. This combination of scientific knowledge and practical guidance is key to creating lively drawings and Tim's ability to convey this in an accessible and engaging way makes this a unique and inspiring guide.

- Covers a broad range of wildlife including mammals, reptiles, birds, fish and insects
- Includes quick, gestural sketches as well as linear and tonal studies, in a variety of media – pencil, pen and ink and watercolour
- Suitable for artists of all abilities, as well as professional illustrators and animators

## Crewel Twists

*Fresh Ideas for Jacobean Embroidery*

HAZEL BLOMKAMP

"Crewel Twists is a beautiful book of beautiful stitchery! I thought it was fun to read, I think the projects are really interesting twists on Jacobean designs, I like the fresh look of the projects and the incorporation of beads and multiple types of stitching that help make the projects fun and challenging, without being daunting." Review of the previous edition – **Mary Corbet's Needle 'n' Thread**

NEW EDITION

Whether you refer to it as crewel or Jacobean, this free form of surface embroidery has been around for centuries and is very popular among needle artists today. Because of the nature of the fanciful objects and the tradition of using a large variety of stitches in one project, it lends itself to endless creative expression. Renowned embroiderer Hazel Blomkamp uses a wide selection of materials to update techniques and inspire embroiderers to explore, while working loosely within the confines of crewel work styles. She shows needle artists how to be creative with fabric, threads, beads and alternative stitches, borrowing techniques from other forms of needlework, and still producing a product that is typical of the crewel or Jacobean style of embroidery.

- A fresh take on Jacobean embroidery
- Materials and techniques to inspire
- Six beautiful, decorative embroidery projects for your home.

### About the Author

Hazel Blomkamp has dabbled with all the needlecrafts since childhood. When her children were babies she developed a passion for embroidery to break the tedium of life with toddlers, using it as her evening reward for having got through the day with her sanity intact. Her children are now young adults and she still embroiders in front of the television every night. She has been designing for the past 18 years. Preferring to design projects which appear to be traditional, she pushes the boundaries by introducing other forms of needlecraft into traditional techniques, exploring further in everything that she does. She teaches at her home studio in Pietermaritzburg, South Africa and travels throughout South Africa and to Australia teaching embroidery and fine beadwork.

## Crewel Embroidery

*7 enchanting designs inspired by fairy tales*

TATIANA POPOVA

Embroidery enthusiasts all over the world have been discovering the exquisite work of renowned Ukrainian embroiderer, Tatiana Popova. In this beautiful book she shows the reader how to create stunning crewelwork embroideries inspired by traditional fairy tales, including The Wizard of Oz, Karolcia, the Wild Swans and Cinderella.

This magical collection takes as its central theme a magnificent embroidery depicting the 'Tree of Happiness'. Each part of the embroidery is then explored in detail through stitch diagrams, explanations of the threads used, and alternative ways of working. There are seven wonderful designs in total, each dedicated to one of Tatiana's favourite fairy tales, and all illustrated with gorgeous photographs and informative diagrams.

In total, over 90 stitches are described in the book, all worked using stranded cotton and cotton pearl thread rather than traditional crewel wool, which gives the embroideries a fresh, modern appeal. Whether you are new to embroidery or an experienced embroiderer looking for inspiration and expert guidance, Tatiana's beautiful book is one you will turn to again and again.

- Author is internationally recognized as one of the top embroiderers in the world
- A highly visual book, packed full of photographs and diagrams explaining in detail the techniques and stitches used
- Includes 7 gorgeous designs and over 90 stitches.

### About the Author

Tatiana Popova is a Ukrainian embroiderer who specializes in silk ribbon work, creating pieces that emanate elegance with their classic designs, luscious colour and artfully realistic flowers.

She learnt to stitch at an early age, inspired by her mother and grandmother's embroidery, and for a time pursued her passion for stitching by studying a huge variety of embroidery styles and techniques, both at school and in her own time. After graduating from university, she discovered the world of silk ribbon embroidery. It triggered the beginnings of her business, Little Owl Smart Crafts Company, producing kits for silk ribbon and crewel embroidery – thus allowing her to create flower bouquets that never fade. Today, Tatiana participates in a number of craft shows all around.

You can find out more about Tatiana and her work via her website, [www.owl-crafts.com](http://www.owl-crafts.com).

## Blackwork Embroidery

*Stitches, techniques and 13 modern projects*

BERNADETTE BALDELLI

Blackwork is a traditional type of counted-stitch embroidery. Monochromatic, with superb shadow effects, it has been revisited here in a magnificently graphic, contemporary style highlighted with occasional splashes of colour.

The 13 patterns designed by Bernadette Baldelli modernize the technique by adding a touch of red to the traditional black and white, and by including both geometrical and more figurative styles. You'll discover a lush, graphic world with embroidery that is simple to do and gives stunning results. You can make a basket, a pouch, wall hangings, placemats, an embroidered shirt, throw blanket and more. Simple diagrams make them easy to do, and there is a wealth of tempting patterns to choose from. Bernadette's creations are known for their excellent finishing touches and these are no exception.

- A very graphic technique that is also very easy, so it's perfect for beginners: all you have to do is follow the pattern with straight stitches or backstitches for a stunning, extremely graphic result
- Bernadette Baldelli is an admired author, her creations are known for their excellent finishing touches
- Like a pattern databank, the diagrams are scattered throughout the book to help readers find inspiration.

### About the Author

Bernadette Baldelli graduated from Paris's prestigious Duperré School of Applied Arts, where she specialized in textiles. She has worked for DMC, created pattern collections for major yarn producers and has published a great many books about knitting, crochet and embroidery.

## Portuguese Knitting

*A historical & practical guide to traditional Portuguese techniques, with 20 inspirational projects*

ROSA POMAR

More than just a history book or a handicraft manual, *Portuguese Knitting* is a journey into Portugal's knitting heritage. Traditional patterns and techniques are brought up to date in the form of beautiful modern pieces such as socks, hats, shawls, cowls, pot holders and leggings.

Portuguese knitting differs from regular knitting in the way the wool is held; it can either be passed through a special Portuguese knitting pin attached to the knitter's clothes, or looped around the neck and then over a finger.

Easy-to-follow instructions and clear illustrations allow beginners or more experienced knitters to recreate historical pieces in an original, contemporary way. You can make the projects as they are shown, or use other colours to create your own unique and original gifts.

- A fascinating historical resource on the history of Portuguese knitting
- Contains previously unpublished photographs of historical importance
- Includes information on techniques and 20 patterns with easy-to-follow instructions.

### About the Author

Rosa Pomar learned to knit at the age of seven and never stopped. As a child, she knitted mainly dolls and her family found it difficult to tear her away from her knitting needles. As the author of one of the oldest Portuguese blogs, [ervilhacorderosa.com](http://ervilhacorderosa.com), she frequently addresses the subject of traditional Portuguese textiles. In 2008, she created Retrosaria, a store dedicated to the sale of fabrics and materials for knitting and sewing ([www.retrosaria.rosapomar.com](http://www.retrosaria.rosapomar.com)). Since 2009, she has created several new textile techniques, always finding ways of bringing the traditional Portuguese knitting methods into contemporary pieces. She has taught dozens of people to knit.

## Mabel Bunny & Co.

*15 loveable animals to crochet using chunky yarn*

CLAIRE GELDER

Who could resist these loveable toys and their babies? De-stress by snuggling up with Mabel Bunny and her friends – oversized crocheted toys, perfect for giant cuddles and little hands. Not just for children, the soft, chunky yarn and floppy limbs will appeal to all, so make them for yourself or give as gifts (if you can bear to part with them). Mabel makes a great reading companion and at about 70cm tall, the animals sit comfortably on a shelf or at the end of a bed.

As well as fifteen different animals to crochet and love, including a dragon, a polar bear, a red panda and a pig, you can also make a mini Mabel, octopus and koala, which are 30–40cm tall. The projects are pitched at beginners as well as those who have mastered the basics of crochet. So be inspired, choose a pattern to start and be prepared to fall in love with this collection of adorable toys.

**Beginner's Guide to Screen Printing**

12 beautiful printing projects with templates

**ERIN LACY**

Screen printing is a print process involving the forcing of ink through a screen of fine material to create a picture or pattern. It has been around for many years, and has long been perceived as a specialist subject accessible only to professional printers and textile artists due to the high cost of the screens and inks.

Recently, however, screen printing has entered the mainstream and the equipment and tools have become more affordable and accessible.

In this *Beginner's Guide to Screen Printing*, Erin Lacy shows you how to make your own screen using an embroidery hoop and silk fabric, and demonstrates how to create beautiful designs that are easy to achieve.

Discover how to print onto different surfaces such as wood, cork and fabric, and create twelve stunning, coastal and botanical-themed projects through bright and colourful step-by-step photography.

- Author Erin Lacy launched her own brand of paints, Pick Pretty Paints, at Kirstie Allsopp's Handmade Fair in 2017
- Erin has also appeared on *Kirstie's Handmade Christmas* TV show
- The book features twelve coastal-inspired projects complete with templates and full instructions on how to screen print at home with homemade frames and screens.

**About the Author**

Erin Lacy traded in her urban roots for walking boots when she moved to open up a print studio in the creative Cornish seaside town of St Ives, UK, where she currently lives. Erin trained at, and graduated from, the London College of Fashion, and went on to surround herself with the world of textiles through work and leisure. She set up a business to promote printing as a craft and went on to demonstrate print techniques at her studio as well as at shows and workshops. She has worked alongside Kirstie Allsopp's team at Handmade Shows and Fairs across the UK.

## The Forest Woodworker

AUG 2019

*A step-by-step guide to working with green wood*

SJORS VAN DER MEER & JOB SUIJKER

Immerse yourself in the ancient craft of working with fresh, green wood.

Expert authors Sjors van der Meer and Job Suijker introduce you to the traditional skills of green woodworking. Learn about the qualities of wood and how to cut and shape it. Craft your own tools such as a shaving horse, wooden club, chopping block and saw horse, and then learn how to use them to make spoons, spatulas, stools and chairs. As well as teaching you new skills, this inspiring book will show you how working in natural surroundings, with natural materials, can create an overwhelming sense of well-being and enhance your awareness of the environment.

- Learning a traditional skill is increasing in popularity
- Make the tools you need as well as ten useful objects
- This guide is inspirational as well as instructional
- With forewords written by experts Mike Abbott and Otto Koedijk.

### About the Authors

Sjors van der Meer developed his passion for woodworking when he was a student at a furniture-making company. He learned all about joinery and became an amateur cabinetmaker. Though this gave him a lot of joy, he fell in love with wood and trees when he discovered the craft of green woodworking; his love for nature and craft came together in this way. Since 2011 he has run green woodworking workshops with his friend and co-author Job Suijker.

Job Suijker studied at the Technical University of Delft and worked for 20 years as an environmental advisor. In his late twenties he developed a passion for nature, especially for trees and forests, with a special fascination for the ancient trees (yew tree) of Great Britain. He fell in love with green woodworking while chopping firewood for his wood stove.

### About the Author

Emily Hogarth's relationship with paper started while she was studying textiles at Edinburgh College of Art. She found papercutting was a quick way of creating sharp, bold, and uniquely individual stencils for screen printing. After graduating she went on to study an MA in textiles, where her papercutting developed and she learned to apply and integrate these unique designs to illustrations and graphic designs. Today she runs her own design business, Emily Hogarth Designs, as well as exhibiting work throughout the UK. She currently lives and works in Edinburgh, UK.

## Papercut Landscapes 2019

**SARAH KING**

Papercutting is a perfect craft for beginners, as you can achieve amazing results with the most basic of materials – a pencil, eraser, craft knife or scalpel, a piece of paper and a cutting surface.

Sarah King's art encapsulates the beauty of the English countryside, particularly the towns and villages around the Kent coast where she lives. Her use of fresh, vibrant colours and delightful compositions evoke memories of happy times, and expert papercrafters as well as those new to papercutting will find the charming, naive style of Sarah's work irresistible.

Sarah's down-to-earth approach to her art makes it enjoyable and accessible to all. In the book she includes sections on choosing your materials and colours, and there is step-by-step guidance through all the basic techniques you need before embarking on the twelve gorgeous projects on the seaside, town life, the wilderness, and more.

- Author is a member of the Association of British Naïve Artists and the Guild of American Papercutters
- Appealing, achievable style
- Simple techniques for impressive effects

## Beginner's Guide to Japanese Braiding

*The art of kumihimo*

JACQUI CAREY

Kumihimo is the ancient art of Japanese braiding; admired for its dual qualities of usefulness and beauty, and associated with both fashion and the samurai.

In this instructional book, Jacqui Carey teaches the use of a marudai (round stand) to produce a variety of different types of braids, which can then be used to create countless combinations of colour, texture and material. Clear step-by-step photographs guide the beginner through each of the projects, and many inspirational examples of the variety you can create are shown.

The rhythmic movements, feel and sound of the marudai in use make this traditional craft a soothing, absorbing and aesthetically pleasing experience; perfect for weaving a calm area in your day.

- Search Press Classic – an update on a proven, popular title
- 6 step-by-step projects
- Insight into a traditional Japanese craft.

### About the Author

Jacqui Carey has specialised in Kumihimo since completing her B.A. Honours Degree at the West Surrey College of Art and Design. Based in Devon with her family, Jacqui divides her work time between making, teaching, writing, researching and demonstrating.
