LEARN FROM 75 YEARS OF LETTERS AND
CONVERSATIONS WITH KIDS

“(A) fascinating look at childhood over the past seven decades, and a testament to how kids’ fundamental concerns . . . remain the same. Full of humor, sadness, frustration, joy and all the other emotions of childhood, the book stands as an important reminder that listening to children with empathy and respect can be the most powerful way to help them grow into confident, caring adults.”

DEAR HIGHLIGHTS

What Adults Can Learn From 75 Years of Letters and Conversations with Kids

Since 1946, Highlights has received more than 2 million letters from children. And for the last 75 years, each child has received a personal response.

Childhood in kids’ own words

This groundbreaking book for adults features letters from kids about their families and friends, their fears and hopes for the future, and how world events have shaped them. The children’s letters, poems, and artwork in *Dear Highlights* form a voice of modern childhood in all its complexities and universal themes.

For Parents, Caregivers, Educators, and Counselors

Dear Highlights is an unprecedented collection of conversations—letters and responses!—intended to help adults foster deeper understanding with the children in their lives.

Helping Spark Meaningful Conversations

Longtime editor in chief Christine French Cully’s insightful narrative becomes a call to action for adults to lean in and listen to children, to make sure our kids know that they matter and what they think matters, and to assure them that they have the power to become people who change the world.

We continue to raise the bar with our unique approach that integrates puzzles and stories to motivate children to read the story, solve the puzzle, and then go back and do it again! In Level P, we continue forest adventures with Bear and Friends. In Level 1, we're introducing endearing new characters Maggie, a scatterbrained magpie, and Pie, a rule-following pigeon. In Level 2, we meet Knox, a snail mail carrier. All levels have value-add activities—matching activities in Bear and Friends, recipes in Maggie and Pie, and jokes in Knox Knocks.

Our signature puzzles provide the backdrop for a scaffolded approach that progresses in complexity in both story and puzzling levels as the child moves up from one level to the next. All books are leveled with both Lexile and Fountas & Pinnell Text Level Gradient systems, making them classroom, school library, and home library ready.

- Level P—Let's Discover Reading: Hidden letters in each illustration throughout the book help develop letter identification skills, with a bonus matching activity to reinforce vocabulary.
- Level 1—Let's Explore Reading: Visual logic puzzles add interactivity, with a bonus activity to reinforce hands-on learning.
- Level 2—Let's Read, Read, Read: Hidden objects and mazes prompt visual learning, with bonus knock-knock jokes and a Hidden Pictures picture dictionary at the end that reinforces re-reading.
