WATCHMEN

A hit HBO original series, *Watchmen*, the groundbreaking series from award-winning author Alan Moore, presents a world where the mere presence of American superheroes changed history—the U.S. won the Vietnam War, Nixon is still president, and the Cold War is in full effect.

Considered the greatest graphic novel in the history of the medium, the Hugo Award-winning story chronicles the fall from grace of a group of superheroes plagued by all-too-human failings. Along the way, the concept of the superhero is dissected as an unknown assassin stalks the erstwhile heroes.

This edition of *Watchmen*, the groundbreaking series from Alan Moore, the award-winning author of *V For Vendetta* and *Batman: The Killing Joke*, features art from industry legend Dave Gibbons, with high-quality, recolored pages found in *Watchmen: Absolute Edition*.

V FOR VENDETTA

A frightening tale of the loss of freedom and identity in a chillingly believable totalitarian world, *V for Vendetta* stands as one of the highest achievements of the comics medium as a defining work for creators Alan Moore and David Lloyd.

Set in an imagined future England that has given itself over to fascism, this groundbreaking story captures both the suffocating nature of life in an authoritarian police state and the redemptive power of the human spirit that rebels against it. Crafted with sterling clarity and intelligence, *V for Vendetta* brings an unequaled depth of characterization and verisimilitude to its unflinching account of oppression and resistance.

But with the planet's future in jeopardy, Superman, Wonder Woman, and Batman must come out of retirement to make one last stand for truth and justice...

BATMAN VOL. 1: THE COURT OF OWLS

"Beware the court of owls, that watches all the time..."

Batman had heard the tales of Gotham City's Court of Owls. Meeting in the shadows and using the nocturnal bird of prey as their calling card, the members of this powerful cabal are the true rulers of Gotham. But the Dark Knight dismissed the stories as rumors and old wives' tales. Gotham was his city.

Until now.

A brutal assassin is sinking his razor-sharp talons into the city's best and brightest, as well as its most dangerous and deadly. If the dark legends are true, his masters are more powerful predators than the Batman could ever imagine—and their nests are everywhere...
