STAMPED FROM THE BEGINNING

A Graphic History of Racist Ideas in America

by Ibram X. Kendi and Joel Christian Gill

A striking graphic novel edition of the National Book Award-winning history of how racist ideas have shaped American life—from the #1 New York Times bestselling author of *How to Be an Antiracist*.

Racism has persisted throughout history—but so have antiracist efforts to dismantle it. Through deep research and a gripping narrative that illuminates the lives of five key American figures, preeminent historian Ibram X. Kendi reveals how understanding and improving the world cannot happen without identifying and facing the racist forces that shape it.

In collaboration with award-winning historian and comic artist Joel Christian Gill, this stunningly illustrated graphic-novel adaptation of Dr. Kendi's groundbreaking *Stamped from the Beginning* explores, with vivid clarity and dimensionality, the living history of America, and how we can learn from the past to work toward a more equitable, antiracist future.

Dr. Ibram X. Kendi is the Andrew W. Mellon Professor in the Humanities at Boston University, and the founding director of the BU Center for Antiracist Research. He is a contributing writer at *The Atlantic*. Dr. Kendi is the author of *Stamped from the Beginning: The Definitive History of Racist Ideas in America*, which won the National Book Award for Nonfiction, making him the youngest winner of that award. He also produced five #1 *New York Times* bestsellers, including *How to Be an Antiracist*, *Antiracist Baby*, and *Stamped: Racism, Antiracism, and You*, coauthored by Jason Reynolds. In 2020, *Time* magazine named Dr. Kendi one of the 100 most influential people in the world. He was awarded a 2021 MacArthur Fellowship, popularly known as the Genius Grant.

Joel Christian Gill is the Chair of the MFA in Visual Narrative at Boston University. He is a cartoonist and historian who speaks nationally on the importance of sharing stories. He is the author of the acclaimed memoir *Fights: One Boy's Triumph Over Violence*, cited as one of the best graphic novels of 2020 by the *New York Times* and for which he was awarded the 2021 Cartoonist Studio Prize. He wrote the words and drew the pictures for *Fast Enough: Bessie Stringfield's First Ride*, the award-winning graphic novel series *Strange Fruit: Uncelebrated Narratives from Black History*, and *Tales of The Talented Tenth*, which tell the stories of Bass Reeves, Bessie Stringfield, and Robert Smalls.

I AM STAN

A Graphic Biography of the Legendary Stan Lee

by Tom Scioli

The first graphic novel biography of the legendary Stan Lee, cocreator of many of Marvel's beloved superheroes, from Eisner-nominated comics creator Tom Scioli.

Everyone knows Stan Lee: His work at the creative helm of Marvel Comics resulted in the creation of many of the superheroes we know and love today, including Spider-Man, Iron Man, Black Panther, Doctor Strange, and more. During his decades-long career at Marvel, Lee turned the comic book publisher into a cultural juggernaut that shaped and defined the burgeoning industry.

In *I Am Stan*, critically acclaimed artist Tom Scioli reveals the man behind the comics and cameos using the same medium Stan Lee revolutionized. This stunning graphic novel takes readers from his early days in the comics industry through his rise at Marvel (then Timely Comics), where his career was touched by other iconic creatives including Jack Kirby and Joe Simon. Their collaboration would lead to the creation of the most iconic superheroes of today, and bring about the Marvel Age of the 60's and 70's that introduced new industry stars like Steve Ditko and John Buscema. Readers will follow Lee's trajectory from his daily life at Marvel to his later years as a spokesperson for the company and for comics as a whole, and finally to his last years away from the spotlight. Scioli provides a clear-eyed view of Lee's triumphs at Marvel, as well as the controversies that surrounded the creator at the end of his life.

Told in Scioli's inimitable, vividly cinematic illustration style, *I Am Stan* reveals Stan Lee's life through the medium he knew best and reveals the inner workings of the legendary creator.

BIOGRAPHY

JACK KIRBY

The Epic Life of the King of Comics

by Tom Scioli

Told in vivid graphic novel form by a groundbreaking Eisner-nominated comics creator, the long-overdue biography of the legend who cocreated Captain America, Iron Man, Black Panther, the Fantastic Four, the X-Men, and many more superhero favorites.

Now in paperback, this sweeping, full-color comic book biography tells the complete life story of Jack Kirby, cocreator of some of the most enduring superheroes and villains of the twentieth century for Marvel Comics, DC Comics, and more. Critically acclaimed graphic novelist Tom Scioli breathes visual life into Kirby's life story—from his days growing up in New York during the Great Depression and discovering a love for science fiction and cartoons to his time on the frontlines in the European theater of World War II where he experienced the type of action and adventure he'd later imbue his comic pages with, and on to his world-changing collaborations at Marvel with Stan Lee, where the pair redefined comics as a part of pop culture.

Just as every great superhero needs a villain to overcome, Kirby's story also includes his struggles to receive the recognition and compensation that he believed his work deserved. Scioli captures Kirby's moves from Marvel to DC and back again, showing how Kirby and later his family fought to preserve his artistic legacy.

Drawn from an unparalleled imagination and a life as exciting as his comic book tales, Kirby's super-creations have influenced subsequent generations of creatives in the comics field and beyond. Now, readers can experience the life and times of a comics titan through the medium that made him famous.

HISTORY

SÍ, SE PUEDE

The Latino Heroes Who Changed the United States

by **Julio Anta** and **Yasmín Flores Montañez**,
foreword by **Congressman Joaquin Castro**

Meet the unsung Latino rebels, artists, and activists who changed the United States—from Dolores Huerta to Desi Arnaz to Lin-Manuel Miranda—in this bold and entertaining graphic history.

From community activism, to the halls of government, pop culture, arts, and beyond, Latinos have shaped every aspect of American life. Nevertheless, these significant figures and their contributions are often left out of our textbooks. *Sí, Se Puede*, named after the “Yes, We Can” motto of the United Farm Workers, brings Latino history in the U.S. to the forefront.

The book follows a group of Hispanic-Americans as they embark on an interactive museum tour to meet Latino heroes they may not have learned about in school. The high tech, immersive exhibit allows the tour group to virtually travel through time; marching with César Chávez and Dolores Huerta in the farmworkers struggle; cheering on baseball legend Roberto Clemente; going to space with Ellen Ochoa, the first Latina to leave Earth’s atmosphere; meeting the youngest woman to ever serve in Congress, Alexandria Ocasio-Cortez; and more. This ensemble of unlikely friends discover the rich history of Latinos in the United States, and gain new insights into their own American experiences.

Sí, Se Puede shines a spotlight on the often-overlooked Latino heroes throughout US history, bringing their stories to life through the sequential action, illustrated characters, and lush color palette of a graphic novel.

Julio Anta is a writer based in New York City. He is the author of the miniseries *Home*, as well as upcoming graphic novels *Frontera* and *Second Generation Blues*. Julio strives to tell narratively rich stories about diverse and empowered Latino characters for adult, young adult, and middle-grade readers.

Yasmín Flores Montañez is a freelance illustrator and comic artist from Puerto Rico. She earned an MFA in sequential art at SCAD, and has created illustrations for Marvel Comics, IDW Publishing, Black Mask Studios, Scout Comics, and more. She enjoys crafting diverse cultural stories that are both action-packed and introspective. Her debut comic book series *Goosebumps: Secrets of the Swamp* was published in 2020.

DIARIES OF WAR

Two Visual Accounts from Ukraine and Russia

by Nora Krug

Powerful graphic journalism that highlights the contrasting realities of a Ukrainian journalist and a Russian artist grappling with their own individual experiences of Russia's war on Ukraine—collected, edited, and illustrated by award-winning author Nora Krug.

Immediately after Russia began its unprovoked invasion of Ukraine in February 2022, Nora Krug reached out to two anonymous subjects—"K.," a Russian-born Ukrainian journalist, and "D.," a Russian artist—and began what would become a year of correspondence during this ongoing war. Based on her weekly interviews with K. and D., Krug created this collection of illustrated accounts that chronicles two contrasting viewpoints from opposite sides of the border.

With millions displaced, injured, or killed as a result of the invasion, Krug presents a look at the devastating effects on an everyday, individual level. K.'s diary documents a year of emotional and existential distress. She experiences loss in every sense of the word: the death of those close to her, the disconnection from her family and friends, and the devastation of her country—but her account is also a story about bravery and survival in the face of dire uncertainty.

In juxtaposition, D.'s narrative details disdain for his government's murderous actions and his attempts at emigrating his family abroad. He navigates his own struggle with cultural identity, guilt, and lack of action in the face of a tyrannical regime—a perspective that is necessary in challenging readers to confront the political actions of their own countries. Krug approaches *Diaries of War* with the immense skill and thoughtfulness required to document these two complicated experiences.

Published as an Op-Comic series with the *Los Angeles Times*, with a portion of the entries unique to this book, *Diaries of War* is a harrowing real-time record of an international conflict that continues to devastate countless lives.

The first thing I did after I found out that war came to Kyiv was take a bath. I sat there for half an hour. I can't describe how I feel. But I know that this is the end of Putin's Russia.

We are still in Kyiv with the kids. They are two and six. It is not easy to be with them and keep calm. It's scary. But Ukraine is very strong, and its people are awesome.

We arrived safely in Lviv. We now live in the neighborhood that used to be the ghetto back in 1941. In front of my window there is a railway. Every thirty minutes I see trains with civilians going west, and trains with tanks going east. Eighty years ago, this railway served Nazis: trains took Jews to concentration camps, and soon after, those trains took people from Lviv to the gulag as many of them were accused of being collaborators.

Terrible. Worst days of my life. Putin kills my country. I'm afraid that a lot of people are still with him. I am drinking wine with my wife and we are discussing emigration.

I'm okay. I'm just trying to figure out a way to emigrate. We have two kids, nine and eleven, and a dog. I am the only one with a passport and a visa.

I'm in contact with my friends from Ukraine, to try to help them with information.

I'm so tired that it's hard for me to communicate.

When I'm in Denmark, like now, I miss my husband and my family in Ukraine. When I'm in Ukraine, I miss my kids. The saddest thing is that I can't put these two lives together, that I can't be in two places at the same time. If the war lasts months or years, what kind of life will we have!

I'm worried about my husband and the other men on my reporting team. When we gathered a few days ago in Lviv they were making jokes, saying that if they were drafted into the army, rather than working as journalists, at least they'd have helmets and vests to protect themselves. I don't want them to die.

I could never have imagined someone wanting to kill civilians, to bomb kids. But that's Russia's daily mission. We have no option but to win the war. If you give Russia something it wants, it will take more. Ukraine must win. For Ukrainians to think that Russia will change if Putin dies is stupid. Russia will be Ukraine's neighbor forever, whether we like it or not. And that scares me very much.

Here in Riga, I'm staying at the apartment of my friend's mother, a nice place with a kitchen where I can cook, a bathroom, a cat, a patio and flowers. I feel very strange. While I was still in Russia, I was sure that once I left everything would be easy. But it isn't. It's hard to read the news, and not be with my family. Yesterday I went to Tallinn, Estonia to visit a friend who immigrated there two and a half years ago. We went to a concert of the Ukrainian singer Ivan Dorn, who is also very famous in Russia. He showed video footage from the war, and right from the start of the concert, I found myself ready to cry.

A few days ago, all public transportation was free because Latvia was celebrating the Declaration of Independence Day, which commemorates Latvia's independence from the USSR in 1990. I was born in the Soviet Union, but Russia is my home now, so I feel no personal connection.

Russia celebrated Victory Day this week. The days leading up to it are always scary, military planes fly over the cities and it is very noisy. The government has changed the meaning of this holiday to use it for the purpose of the current war.

"DIARIES OF WAR IS A MAGNIFICENT FEAT OF WITNESS."
—ALISON BECHTEL

My son turned seven in Copenhagen, and I invited a close friend and her son to celebrate with us. It felt surreal, as if we had gone back to a time before the war.

I have some acquaintances who are Russians, and also a few distant relatives. They are all against Putin and Russia's crimes against Ukraine. But I can't speak with them without feeling anger somewhere deep inside me, so I try not to speak to them at all. Thinking about how they have closed their eyes to what Putin and his people are doing, without doing anything against it, makes me feel sick.

This week I was waiting to hear back from a friend who lives in Sverdlovsk, a region that's under constant shelling from the Russians. He's an activist and very open about his anti-Russian views, so I was worried. I know that if the Russians captured him, they would torture and kill him. When I finally heard back from him it was such a relief. He somehow escaped that hell. I hope to see him in Kyiv. I'll return to Ukraine this week.

I'm still in Riga. People here seem open, friendly and trustworthy. Sometimes I worry that some won't want to talk to me or work with me because I am Russian. I haven't seen this happen, so I hope these are just my own internal fears.

There used to be many negative stereotypes in the world about Russians. I was very glad when that perception gradually changed over the years. But now we're going backwards, and there will be new negative stereotypes. I have read comments about canceling Russian culture. It is difficult for me to read such comments, but I try to understand the people who write them. I can't even begin to imagine what they experience and feel. But I also know that not all Ukrainians think this way.

I have collaborated with a French institute over the years, and they have offered to help with my visa application. A French visa would allow me and my family and I to stay in Latvia for ninety days because it is valid anywhere in the European Union. I'll return to Russia this week for the paperwork.

I'm in Zakarpattia, the Carpathian Mountains, with my husband, his parents and our kids. Before WWII, this area was a territory of Hungary. The villages close to the guesthouse were built in the 13th and 14th centuries. It's beautiful and peaceful here. My parents-in-law are visiting this area for the first time, and they like it very much. The guesthouse has a swimming pool, so my kids spend most of their time in the water.

Before we arrived, I told my family that this would be the safest place for us to gather because Russia wouldn't shell this region. It's close to Hungary and Hungary's prime minister is Putin's friend. But during our second night, we were woken by the sound of an air raid siren. My husband's parents said they heard the hissing sound of a flying rocket. They believe it was a cruise missile. They know this sound very well because they often hear such sounds in Kyiv, where they live. They weren't scared at all.

Today, Russia fired missiles at a crowded neighborhood in Vinnytsia. A little girl was killed, and this news crushed me. The girl's mother survived the attack, but is in hospital with multiple injuries. The doctors haven't told her yet that her daughter is dead — they worry that if they did, she'd lose her will to live, and die. The girl was the same age as my younger son. I watched a video of her and cried. What if this woman were me, and this child mine? Would I support Ukraine's surrender, just so all of this would end?

I seem to have returned to normal life this week. I get up at 7:30AM, walk the dog, make breakfast for the children and go grocery shopping. I took part in a charity book sale event in support of people with disabilities. Many people donated books. I helped unload them from a van, and there were at least four tons. There were a lot of supportive people at the event, and I'm sure that many of these people are against the war. It was a very emotional experience for me.

The place where Russian culture is most actively canceled is in Russia itself. Many Russian writers and musicians have by now been banned by the Russian authorities, and a week ago, the theater directors here were fired.

I asked my wife whether she is more scared by the idea of staying in Russia, or by the idea of emigrating. She said it is scarier for her to leave because she is afraid that she will feel alone and without a real purpose. I am afraid too. There were new explosions in Ukraine today, in Vinnytsia. I have no words to describe those horrors. People continue to die. I feel dumb with despair, paralyzed. And I understand that, no matter where I end up living, I will feel this way. I can change my location, but I cannot change that feeling.

Richard Adams (May 9, 1920–December 24, 2016), an English veteran of World War II, originally told the story of *Watership Down* to his two daughters, who insisted he publish it as a book. It became an instant classic, selling over a million copies in both the United Kingdom and the United States and winning both the Carnegie Medal and the Guardian Children's Fiction Prize in 1972. His other books include *Shardik*, *Maia*, *Tales from Watership Down*, *The Girl in a Swing*, and *The Plague Dogs*.

James Sturm's graphic novels include *Off Season*, *The Golem's Mighty Swing*, and *Market Day*; he coauthored the popular instructional series for children *Adventures in Cartooning* with Andrew Arnold and Alexis Frederick-Frost. Joe Sutphin is an illustrator of books for kids, such as Helen Taylor's *Little Pilgrim's Progress*, Andrew Peterson's *Wingfeather Saga*, and the *New York Times* bestseller *Word of Mouse* by James Patterson. His love of nature, and of the living creatures in the fields and woods around his home, has informed his art for much of his life. Joe lives in a barn in Ohio with his wife, Gina, and a bunch of cats.
