ENDURANCE

This is the astonishing visual record of a legendary find: the wreck of Ernest Shackleton's *Endurance*, located 10,000 feet below the ice in Antarctica's Weddell Sea.

A companion feature film produced by Jimmy Chin and Chai Vasahelyi that will be streaming on Disney+ in spring 2025, a *National Geographic* magazine story, and a touring exhibition will be strong support vehicles for this first and only book to fully document the images of this historic expedition. There will also be numerous special sales opportunities with over 500 maritime museums in the U.S. and UK. John Shears will be the spokesperson, and HRH Anne, the Princess Royal, is writing the preface.

TARGET AUDIENCE

Domestic and international history readers, nautical and adventure travelers and readers, *Titanic* history buffs, history and seaport museum visitors, and Royal Geographical Society, Royal Scottish Geographical Society, and Explorers Club members
