The full, unexpurgated Department of Justice report on the investigation into the events previously known as the “Tulsa Race Riots” — and the revelation of the government's own white washing of the massacre that actually took place, an attack “so systematic and coordinated that it transcended mere mob violence. . .”

“Until this day, the justice department has not spoken publicly about this race massacre or officially accounted for the horrific events that transpired in Tulsa. This report breaks that silence by rigorous examination and a full accounting of one of the darkest episodes of our nation’s past. This report lays bare new information and shows that the massacre was the result not of uncontrolled mob violence, but of a coordinated, military-style attack on Greenwood.”
