NG FIELD GUIDE TO THE BIRDS OF THE UNITED STATES AND CANADA, 8TH EDITION

America's beloved bird field guide just got even better with this completely revised 8th edition, created for a new generation of birders. Updated ID guidance, descriptive details, and annotated art on more than 1,000 species, including new range maps powered by eBird technology. For the first time including the birds of Hawaii as well as Alaska, Canada, and the continental United States—a total of 1,150 bird species—all these revisions make this new edition the most authoritative birding book on the market, whether you have treasured our previous editions for decades or you are selecting a bird field guide for the first time ever.

9781426223082 | SC, 592 pages, \$32.99
9/9/2025

BEST FOR: Birdwatchers in the western U.S. and Canada from the Rocky Mountains west, and for the first time including the birds of Hawaii. Helpful for beginners, satisfying for more experienced birders, even life-listers.

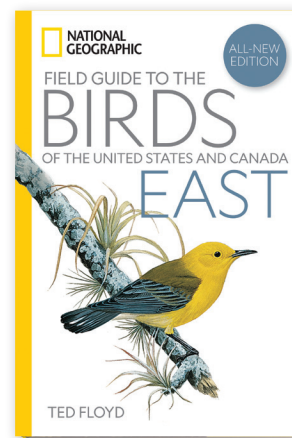

NG FIELD GUIDE TO THE BIRDS OF THE UNITED STATES AND CANADA—WEST, 2ND EDITION

This entirely updated edition of National Geographic's top-selling regional bird field guide provides identification information, maps, and illustrations for identifying nearly 1,000 bird species of the western United States and Canada, including Hawaii.

9781426222788 | SC, 496 pages, \$24.99
2/4/2025

BEST FOR: Birdwatchers in the western U.S. and Canada from the Rocky Mountains west, and for the first time including the birds of Hawaii. Helpful for beginners, satisfying for more experienced birders, even life-listers.

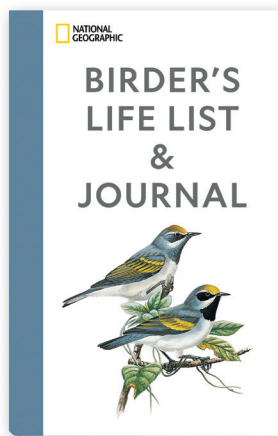

NG FIELD GUIDE TO THE BIRDS OF THE UNITED STATES AND CANADA—EAST, 2ND EDITION

This entirely updated edition of National Geographic's top-selling regional bird field guide provides identification information, maps, and illustrations for identifying more than 800 bird species of the eastern United States and Canada.

9781426222771 | SC, 448 pages, \$24.99
2/4/2025

BEST FOR: Birdwatchers in the eastern U.S. and Canada, up to the Rocky Mountains. Will satisfy serious birders but also a great starter book for young birders and backyard enthusiasts who want to identify what's at the feeder.

NG BIRDER'S LIFE LIST & JOURNAL

Every birder keeps a life list—an account of when and where each new species was sighted—and this blank book brings structure and beauty to the project. This guide is organized to match ornithological taxonomy and is enhanced with occasional text by renowned birder Noah Strycker and illustrations by expert bird artists. With an index to help navigate and organize one's findings, this journal makes keeping a life list all the more pleasant and convenient. A fitting complement to the best-selling National Geographic line of birding field guides, this is a perfect gift for birders young and old, new and experienced.

9781426223167 | SC, 256 pages, \$19.99

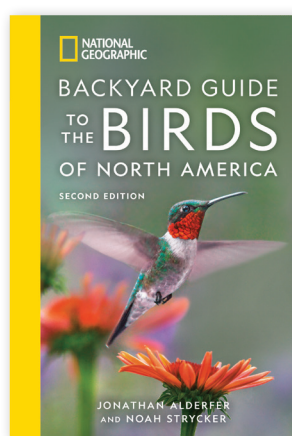

BEST FOR: A handsome record and keepsake for dedicated birders of the U.S. and Canada, organized by bird taxonomy, with blanks for dates, locations, and details chronicling a lifetime of species sighting.

NG BACKYARD GUIDE TO THE BIRDS OF NORTH AMERICA, 2ND ED.

This book is for casual birdwatchers young and old who want a quick and easy guide to the 150 birds most likely to visit their backyards and bird-feeders. Each bird is represented with custom art and range maps, identification tips, and interesting facts, plus there are many pages of ideas on how to design your living space, city or suburb, to attract the birds.

9781426220623 | SC, 256 pages, \$21.99

BEST FOR: Casual birdwatchers of all ages, a good starting point. Especially for those with bird feeders who want to know more about their winged visitors.
